Dream Molds

Dynamic Mold Insert

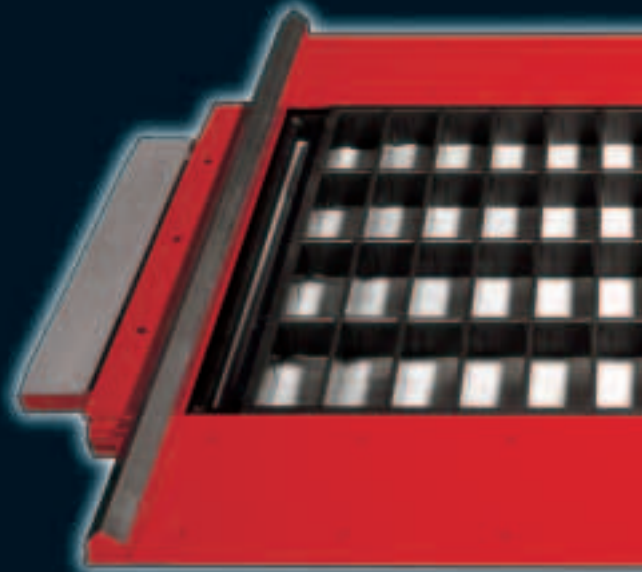

The Future in Mold Construction

Kobra's Dynamic Mold Insert kicks off a New Age in Concrete Stone Production. It shows production results that far exceed everything thought to be possible.

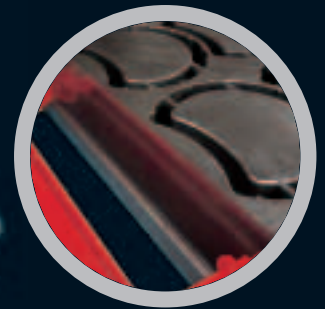

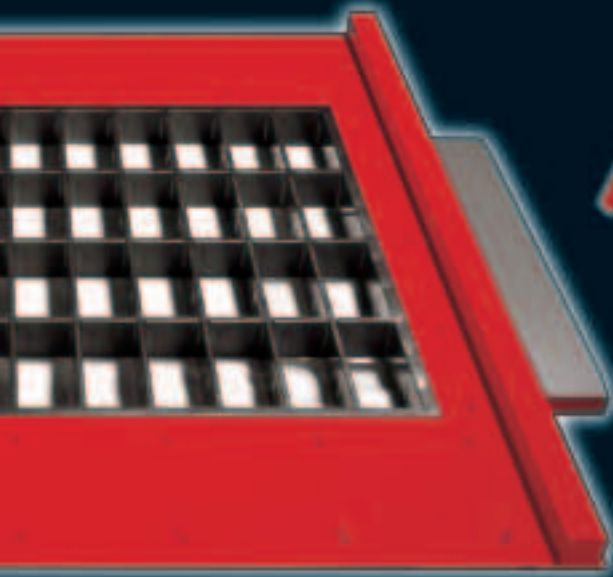

The Dynamic Mold Insert can be applied to Molds for all stone types and opens up a new dimension in Product Quality as well as refines your Production Process itself.

Advantages:

- 25% Paver Strength Increase
- More Equal Compaction
- Optimum Smooth Paver Sides
- Longer Mold Life
- Shorter Cycle Times
- Less Machine Wear
- Less Noise
- Less Energy Usage
- Easier Multi-Layer Production
- Mold Frame Reusable
